

eGIS Team Updates

August 2022

LARIAC (An)

- The 3rd and Final Frequent Image Capture flight for LARIAC6 began mid July 2022.
- All initial flight plans have been completed. Planes are on site to recapture images that didn't meet specs
- EagleView plans on finish flying by the end of this week.

- Final delivery should be around mid or end of September

LARIAC

(An)

- Image capture for LARIAC 7 is expected to begin in early 2023. We are processing an amendment to extend the EXST contract with EagleView to collect data for LARIAC7
- 41 organizations have confirmed their intent to participate in LARIAC 7 (either via a Letter of Intent or a signed Participant Agreement) representing approximately \$4.3M in funding resources.
- The GIO is still in discussions with several other potential entities about becoming members of the consortium.
- SOW for Street-Level LiDAR/Imagery is under initial review before going to the TAG for review & comments. Once TAG approves the SOW, we will start the procurement process with an RFP
- Staff are now drafting the SOW for the Frequent Image Capture program for LARIAC.

ArcGIS Online (Shannon - Sumaiyah)

ArcGIS Enforcement is scheduled for August 30

- Dashboard refresh scheduled August 15 and 29
- Warning emails scheduled by August 18 and 29
- If you would like to meet with eGIS staff to review compliance issues, please reach out to egis@isd.lacounty.gov or use the Users Council team

ArcGIS Online standards to be enforced:

- Any user who last logged in over 6 months ago will be deleted:

90 USERS

- Disabled users who last logged in over 3 months ago will be deleted

61 USERS

- Users with incomplete user profile (thumbnail, bio) will be disabled

189 USERS

- Owners of groups with incomplete metadata (thumbnail, summary, description) will be disabled

118 USERS

- No enforcement actions related to items this time, but while you are updating your groups and profile, please review your items as well and clean up what you can.

User profile visibility

- We encourage ArcGIS Online users to share their profile publicly unless there is a compelling reason not to

Data (Norman & Rob)

- **City Boundaries – Schema Change Coming**
 - **eGIS_Boundaries_Political.EGIS.DPW_CITY_BOUNDARIES**
 - New city boundaries data with new schema will be added for reference this week -
eGIS_Boundaries_Political.EGIS.DPW_CITY_BOUNDARIES_NEW_SCHEMA
 - Send out / post update schedule – allow about a month before updating schema
 - We will provide schema change table on eGIS Central
 - For map service owners: Take note of any changes which might affect your map service (e.g. pop-ups)
 - EGIS is identifying services potentially affected – will share list on eGIS Central
- **GIS & Equity Working Group**
 - Established in July to look at data, applications and resources relating to equity efforts in the County
 - Meeting monthly – so far cataloguing content and definitions with goal to develop an Equity Hub site that links to main eGIS Hub
 - Please reach out if you'd like to join the meetings or be invited to the Teams team
- **Data Committee/AGOL meeting 8/31/2022**

Demography & Census (Victor)

The CA Dept. Of Finance, Demographic Research Unit (i.e.: CA Census Data Center) will be making the SoCal government visits on September 20, 2022, and to coordinate an in-person meeting among Los Angeles County, Los Angeles City, and SCAG to discuss any trends can incorporate into State's population and housing estimates, reporting of ADUs, and the 2020 Census. Please contact Victor Chen vchen@isd.lacounty.gov if this meeting can meet your need.

Infrastructure Status & Updates (Jason)

- EGISDBP2 SQL server has been upgraded on 7/17/2022(Windows 2019 and SQL2017)
- Will continue Windows 2012 Migration project. Total 14 Windows 2012 servers need to be upgraded before 10/10/2023
- McAfee upgrade on eGIS production servers(8/10, 9/12, 10/4). Total 16 servers. Notification was sent out 8/2/2022
