GIS DATA COMMITTEE MEETING

Minutes

Wednesday, October 26th, 2022 ~ 2:00pm / eGIS

TOPIC	WHO (TIME)
Welcome / Who's on the Call? **45 Participants:** Rachel R. Marquez; Juan-Raul Cardenas; Christine Lam; Raffi Sahakian; David Ahia; Miller, Grant J.; Jason Chen; Michele Fernando; Diaz, John; John Halaka; Liza Markey; Steve Steinberg; Robert Graham; Todd Zagurski; Talar Katoromian; Durga Niraula; Junior Togelang; Morga, Jennifer; Nicole Mercier; Nicole Richardson; Natalie Mann; Kolotita Schuck; Fady Toma; Kyle Williams; John Hickok; Norman Wong; Mauricio Lucero; Daniel Hoffman; Victor Chen; Roumel Lagsa; Brandon Price; Junlei (Jimmy) Chen; 16264760728; Diane Tan; Nick Franchino; Rob Barreras; 12135032938; Chow, Naomi; Jordan Cooper; Margaret Carlin; Tia Morita; Mark Greninger; An Dang; Sidra Gardezi; Wen Bo Zhou; Phuong-Lan Nguyen	
Announcements • LA County GIS Day on November 16 – Mapping LA County's Story • PostGIS Day – November 17 • eGIS Brown Bag tomorrow 10/27 • No Data Committee in November, next meeting 12/14/2022 • Trainings & events calendar – https://central.gis.lacounty.gov/resources/training/ **GIS Day still accepting submissions for Map Gallery/Map Expo - https://forms.office.com/g/0WjmRTqEmd , also link from the Hub page above.** **Please attend, share with your networks.** **Also call for presentations for Esri UC is now open – consider submitting projects or discussions that will be ready for July 2023.**	Rob (5)
Data Updates • Election Freeze through 11/11/2022 • City Boundaries schema changes pushed back to 11/18/2022 - https://central.gis.lacounty.gov/2022/10/18/updated-schedule-for-city-boundaries-schema-changes/ • Updated CSA Boundaries in QA o Add "Feat_Type" field to CSA layer? • USPS Addresses – **eGIS_Addressing.EGIS.USPS_Address_Table** • LA City Council Districts – **eGIS_Boundaries_Political.EGIS.LACITY_COUNCIL_DISTRICTS_2022**	Rob/Durga/ Norman (15)

Next Meeting: Wednesday, December 14, 2022 (2-3:30pm)

CSA's – yes add the Feat_Type field to be consistent with city boundaries. We'll follow a similar process for the changes as we're doing for the city boundaries – Durga, Norman, and Rob will work together on it. We're expecting CSA's to be through QA in the next couple weeks, will share an eGIS Central post As an eGIS backlog item – add Long Beach neighborhoods to our CSAs (currently one feature for the city of Long Beach) – data source: https://maps.longbeach.gov/datasets/98042d5165ab4b27bf44b6d3d78d3c49_0/about (source is due for another update sometime this year, maybe incorporate after that happens). USPS Addresses – lots of good information, plus a locator file for geocoding in the members drive. Victor/eGIS will update yearly. Starting to use for CAMS QA and improvements. PW has created a script to generate mailing labels from the data, will post to eGIS Central and share at next User Council meeting. USPS table includes ZIP+4. We are not able to share it with other orgs, but it is not cost-prohibitive for partners to purchase on their own. City Council Districts – layer in repository for easy access for analysis and mapping. Also we'd like to add a link to the LA City hosted layer to our open data portal: https://geohub.lacity.org/maps/la-city-council-districts-adopted-2021. For now, just add as an AGOL item/link – then consider reaching out to LA City to federate all of their open data layers (last time several years back was a challenge as their GIS operations were in disarray). Also consider reaching out to Long Beach to potentially federate their open data.	
AGOL Bug Reports • BUG-000153096: "User with a custom role and all privileges is unable to change the sharing settings on items." • BUG-000153192: "User with a custom role and all privileges is unable to change the ownership of an item that is shared to a group they are not a member of." **Applies to Dept_Admin role – not able to manage groups as before, solving as soon as possible.**	Rob/eGIS (5)

Working Group Updates
• Locator Geocoder Working Group Teams channel
   o First meeting last month
• GIS & Equity Working Group Teams channel
   o Props to Tia for Hub/EB work
   o Adding content and metadata
• LMS Working Sessions (weekly)
   o ServiceLocator vs. LMS/POI for base maps and analysis
   o For LMS/POI – Identifying data we'll commit to maintain; identifying sources and developing structure, responsibilities, and ETL's
   o For ServiceLocator – Meeting with departments to clean categories and tags
 	
GIS & Equity – Tia shared working version of the upcoming equity hub. Please reach out if your department has apps or data to contribute.
	Rob/All (15)

Open Discussion	All

• Any other topics or issues to discuss **Several DPSS layers with _OLD suffix – are these necessary or need to be cleaned out? Tom is working with DPSS on updates, we will check in with him on what is going on.**	Page
Closing/Action Items
